- [About AFSAC](#)

- AFSAC's goal is to satisfy our customers' needs. This Web based service is another attempt to achieve that goal. It is not intended to replace our valued personal interface with our customer. Because our customers are worldwide, we have developed this interface to provide easy, around-the-clock access to information about our services.
- [Business applications](#)  
We currently offer a suite of 4 Business Applications for accessing your FMS data via this web site. In addition we also have a quick view application to obtain a snap shot of a requisitions current status. As of 22 March 2003 we have the ability to input AD1 data via the web site.  
The following link provides a link to the World Wide Webwarehouse:[Click here to access the WWRS business applications.](#)
- [WEBLINK International Access](#)  
WebLINK International is a web based service provided by the Defense Logistics Information Service. It provides one-step access to multiple databases, which allow a user to research the supply pipeline by country and service. Click the link above to go directly to their website to find out more about this service. [Click here](#)

**Oracle Applications Suite: AFSAC Online currently offers two Java based applications that the user can access directly. You can also access the Narrative and Contract Data interrogations from links within the Requisition History application. Therefore, a total of 4 Java based applications are currently available. Future enhancements in 2003 will allow direct access to Narrative and Contract Data from this menu.**
